Breast cancer research

A 40 years perspective
In honor of professor Olle Stål

Jan 18, 10-16
Linden
Breast cancer research
A 40 years perspective
Symposium in honor of professor Olle Stål
Jan 18, 2019 | Medical faculty, Linden

Preliminary scientific program

Welcome

Coffee & chat (09:30)
10.00 – 10.05 Practical info and overview for the day
10.05 – 10.30 Bo Nordenskjöld – Opening remarks
10.30 – 11.00 Marie Askmalm – The development of a PhD student - from the understanding and interpretation of the molecular pathways to the implementation of oncogenetics in precision medicine
11.00 – 11.30 Cecilia Gunnarsson – RASopathy
11.30 – 12.00 Åke Borg – Molecular methods for breast cancer subtyping.

Lunch (12:00-13:00)
13.00 – 13.30 Linda Lindström – Tumor characteristics associated with the long-term risk of fatal breast cancer and benefit of tamoxifen therapy
13.30 – 14.00 Gizeh Perez-Tenorio – Cell signaling in breast cancer
14.00 – 14.30 Charlotta Dabrosin – The role of inflammation in breast cancer progression

Coffee break (14:30-14:45)
14.45 – 15.15 Linda Bojmar – “Like a metastasis”
15.15 – 15.45 Mårten Fernö – Biomarkers in breast cancer; a 40 years perspective
15.45 – 16.00 Olle Stål – Non-closing remarks
Breast cancer research
A 40 years perspective
Symposium in honor of professor Olle Stål

Welcome to participate during this day.

Ahead we have a day full of interesting scientific presentations, all related to Olle’s research area. We hope that this symposium will be an opportunity to exchange ideas, update us in the field of research, reconnect with our colleagues but also celebrate.

Practical information:

**Place:** Lecture hall Linden (Linköping University Hospital, entrance 65, floor 09)

**Scientific program:** 10:00-16:00
(Notice that this preliminary program may change)

Please, let us know in which activities you will participate during this day and your dietary requirements. We appreciate your response no later than January 10 through this [form](#).
