

Linköping University Summer Academy

Survival Guide 2018

Welcome to Linköping University!

This booklet is intended to answer questions that you might have when you arrive in Linköping for the International Summer Academy in July 2018. The different sections cover practical matters with information useful throughout your whole stay.

Before we start, we bet you have been wondering—how do I pronounce Linköping and what are those funny dots? Well, here is how you do it: “Lin” (like linen) – “cher” (like the famous singer) – “ping”! It is good to know that the Swedish alphabet has 3 extra letters compared to the English alphabet and these are: Åå, Ää and Öö, so in other words - those funny dots and circles are important. You may need to use these letters during your stay.

Information that you may find relevant can also be found on our webpage for exchange students:
www.student.liu.se/exchange

We hope you will enjoy your stay in Linköping and the province of Östergötland!

1. Finding your way at Linköping University (LiU)

1.1 Campuses and facilities

Linköping University has four campuses in Sweden, where the main campus is Campus Valla.

Summer Academy students will attend their courses at the University Hospital Campus (Campus US), which is located within walking distance from central Linköping. The campus is integrated with Linköping University Hospital, which is serving the entire southeast region of Sweden with specialised care.

PLEASE NOTE that when you take transport to the Campus you will see that it is referred to as "US". The US stands for *Universitetssjukhuset* because in Swedish *sjukhus* means hospital.

Students are also welcome to utilise Campus Valla for its large library and facilities.

Library

If you would like to find course books, you should make your way to our libraries.

- Campus US library: Cellbiologen 436, entrance 65, open in July Monday-Friday 09:00-16:00
- Campus Valla library: Building D, entrance 41, open in July Monday 10-18, Tuesdays - Friday 10:00-14:00

You can also go to the library website (applicable to all campus libraries) to see whether your particular book is available, order books, arrange to borrow the book from another library and so forth.

The Swedish library system can be quite complicated if you are new to it, but do not worry – **The library is organising a short information session during the welcome reception.**

The city library in Linköping is very good, but requires another library card, your LiU card is not valid there. Visit the city library with your valid ID and they will help you there.

Classrooms

All classes will be held at Campus US (map included on final page), entering via Lasarettbacken (Hospital slope) you will reach many of LiU's facilities. Entrance 65 takes you to the library, the Berzelius auditorium and other auditoriums. Building 511 contains, among

other things, the largest auditorium on campus, classrooms, rooms for group work, student kitchens and the Summer Academy Office.

Your LiU card is required for access to the buildings. Students are not allowed to be in the Campus US buildings between 22:00 and 06:00.

If you have problems finding a classroom, you can search on LiU's website: <http://www.liu.se/om-liu/till-liu/kartor/larosalar>

Computer rooms

We expect most students to bring a laptop to summer academy, but if needed there are computers available to you as a student at Linköping University. On Campus US there are computers in the Campus US library: Cellbiologen 436, entrance 65, open in July on Monday-Friday 09:00-16:00. There is also a computer room (in Swedish: *datorsal*) in building "Örat", entry 73.

Networks on campus

There are two types of wireless networks at Linköping University; Netlogon and Eduroam.

Netlogon is very easy to get started with, but it will require you to log in (with your LiU-ID) each time you connect.

Eduroam only needs to be installed once per computer/unit. Once figured, it will also work at other universities and colleges within and outside Sweden that are participating in the Eduroam partnership.

Prayer and meditation – Rooms for reflection

For those seeking tranquillity, silence, reflection, prayer or meditation, you can use one of the quiet group rooms in building 511 (the building called "Växthuset").

1.2 Eating on Campus

On Campus US you will find:

Restaurant & café Blåklinten:

Adress: 11, Universitetssjukhuset, Linköping.

The card will also be used to utilize the sports facilities available at [Campushallen](#). (More information about Buses in section 3).

Ryd

About 8000 people, of which nearly 3000 are students, live in Ryd. It feels like a city within the city with a full service center. However, during the summer month less students will be around. You can exercise at the outdoors gym or get some fresh air in the adjacent Ryd forrest. As a Ryd resident you are privileged with access to a sauna (not only the Finns use saunas, you know!), beach volleyball, tennis courts and several BBQ areas.

Flamman/Fjärilen

The accommodation is in two student buildings called Flamman. The buildings are located about a 20-minute walk from the University Hospital Campus. With a 10-minute walk to the city centre, you will have access to all that Linköping has to offer. You will have access to good laundry rooms, recycling facilities and study rooms at the nearby city library. There is also a possibility to exercise in the adjacent Ryd Forrest. The University Hospital Campus is 25 minutes by bus.

Irrblosset

The area Irrblosset in Valla is located about a 20-minute walk to the city centre and a 10-minute bus ride to the University Hospital Campus. In the area there is a woodland called Vallaskogen and also the "Old Linköping" where you are able to experience the historic buildings of Linköping. There are two grocery shops, a pizzeria and other restaurants nearby Irrblosset.

Mini trucks and vans can usually be rented for up to 4 hours at a time and can cost between 400 and 800 SEK/0-4 hrs depending on size.

When driving, remember that speeding is a serious matter in Sweden and fines are very high, sometimes up to 3000 SEK or a revoked driver's license.

Drinking and driving is illegal and is not socially accepted! The limit for drunk driving is very low, 0,2 milligrams per millilitre of blood.

4. Linköping – Tips for your stay

Money and paying

You can find ATMs all around the city and in Ryd. All major credit cards are accepted, but you might have to pay a withdrawal fee. Check with your local bank at home.

Money exchange is possible in most of the Swedish banks, one example is Forex bank. You will find them already at the airports as well as everywhere around Linköping city.

The most common way of paying in Sweden is by card. Swedes do not like cash, which is why you can pay by card literally everywhere. Please note that some of the social activities organized can cost money and that will most often be paid in cash.

Swedish power sockets

In Sweden the standard voltage is 230 V. The standard frequency is 50 Hz. The power sockets that are used are of type F. To the right you find a picture of these power sockets and corresponding plugs.

Type F: This socket also works with plug C and E

Telephone

We will provide you with a free Swedish SIM card on arrival. However, you will need to top it up yourself. It can be used in all phone types. Please make sure your phone is unlocked, so that you can use it. You can get credit for your mobile phone in most press shops, news agencies shops and grocery stores.

Calling in Sweden

When making local calls from a mobile phone, you must dial the area code followed by the phone number.

When making an international call, you dial 00 + [your country's national code]. If people will call you from abroad, the country code for Sweden is +46 and usually lose the first 0.

<http://www.eniro.se/> is a useful website where you can find phone numbers, people, addresses, stores etc. all over Sweden.

<http://www.hitta.se> is a similar website.

5. Important to know about Sweden

Laws to note:

Alcohol laws

The age limit to procure alcohol is 20 years and you have to be able to prove your age with a photo identification card. In Sweden only Systembolaget, the state owned monopoly has the right to sell alcohol stronger than 4 volumes per cent. In restaurants and clubs, you have to be at least 18 years old. You need a valid ID, such as a passport, to buy alcohol in Systembolaget. Please note that your LiU-card is not valid as identification at Systembolaget.

Smoking laws

Smoking is forbidden in all restaurants, pubs and public indoor areas. Further, smoking is not allowed

in the accommodation corridors, so please go outside to smoke! Please note it is forbidden to smoke in the Campus US area due to the health of patients.

Drug laws

All contact, use or distribution of any drug is strictly forbidden! The Swedish attitude in this matter is very severe and there is a non-tolerance to the use of any drugs. It is not accepted by young people in Sweden to take drugs.

As far as the university is concerned, it does not accept any use of drugs and does not hesitate to send anyone home in case of use of any illegal substances.

If the staff in a pub/club believe that you have taken or are in possession of drugs the police will be contacted!

Travelling around Sweden:

A great way of travelling around Sweden is by train. The largest train company is SJ - www.sj.se - If you are aged under 26 you will get cheaper tickets.

Buses are another, sometimes cheaper option. There is no company that covers all of Sweden, but Swebus Express (www.swebusexpress.se) offers a lot of destinations. For cheap trips to Stockholm and Gothenburg Bus4you (www.bus4you.se) and Blåklintsbuss (www.blanklitsbuss.se) is often used. Another bus company that offers cheap tickets is FlixBus (www.flixbus.se).

Right of Public Access (Allemansrätten)

In Sweden we have something called "Allemansrätten" which is the right of public access to nature, which only very few countries have. We therefore value and protect this right and note the responsibilities that come with this right.

We can:

- move around freely in fields and forests
- pick berries, mushrooms and flowers which are not protected by law

- camp one night without permission from landowners - however, not too close to a populated area
- bath, row, sail, paddle and drive motorboats on the lakes and rivers
- light a fire but only in certain prepared places. In windy or very dry weather it is absolutely forbidden to light fires anywhere.

We must not:

- leave litter e.g. paper, plastic, glass etc. behind in the nature (it is against Swedish law and you will be fined if caught)
- damage growing trees or bushes
- walk over fields in crop or through newly planted forest areas
- take birds' eggs or birds' nests

Traditions and unwritten rules in Sweden

- Take your shoes off when you enter someone's home: for some of you, it may seem like a strange habit, but when you enter someone's home you will have to leave your outdoor shoes at the entrance and walk around in your socks.
- Arm-length distance: it is the distance Swedish people normally stand apart from each other when talking. Do not feel offended if the Swede will start to back off if you get too close. It is just normal to keep the personal space in this way.
- Lines-queues: whenever waiting is involved (cinema, bank, library, shop etc) you will be expected to wait in line. Do not forget to take a numbered ticket from the dispenser if there is one or you will not be served.
- Equal opportunities: men and women have equal rights. There should be no harassment or discrimination on the basis of gender, social or ethnic affiliation, religion or faith, sexual disposition, age or functional disorder or any other grounds for discrimination in Sweden.

6. Emergencies and Healthcare

In case of an emergency

The European **emergency number** is **112**. In case of an emergency, you can call this number for assistance from the police, the fire brigade or hospital/ ambulance.

If your condition is very serious and you need immediate treatment, go to the Emergency Room, ("Akuten"), at the University Hospital in Linköping or call emergency services on 112 for an ambulance.

Healthcare

If you need to consult a doctor you need to call the primary health care centre, **Vårdcentral**, in the district where you live. Call the County Council, Landstinget, which is responsible for all health care in the county, on phone number 010 - 103 00 00; tell them where you live and you will be connected to the health care centre you should visit. If you do not have a Swedish civic number, you must go to the Vårdcentral in person, in order to get a so called F-number.

Call Dial-A-Nurse on telephone number

1177 if you are feeling ill and want to get medical advice from

experienced nurses. They can also make an appointment for you at Jourcentralen, a clinic with on-call medical staff, when your local health care centre is closed. The nurses may also advise you to go to the Emergency Room.

Students with the **European Health Card (EHIC-card)** pay normal fees for emergency and necessary health care.

(Normal = same prices as for Swedish residents). If you do not have the EHIC card you should order one directly from www.applyehic.org

Students coming from **outside the EU/EES countries** (with few exceptions like Quebec, Israel, Tunisia, Australia), have to pay full fees for all health care. Expect to pay 1860 SEK for a doctor's appointment and 620 SEK for other care. Therefore, make sure you have a complementary health insurance from your home country.
